**THINK  
SAFETY**

Approaching almost 40 years in business specialising in the field of hydraulics, we are proud to announce the launch of our specialist tool hire division...

# HydraHire

With safety being paramount within any industry, we ensure as part and parcel of our national equipment hire service, that any equipment hired from us is fully inspected, examined and tested to meet all current statutory regulations and requirements.

## industrial tools

# speciality & maintenance tools

# bolting tools

# Just a few of the many possible applications our tools can handle...

**National coverage with support for all products and services**
